ARCHITECTURE & DESIGN EXPERIENCE

FREELANCE DESIGNER
New York, NY
06/2010 - PRESENT

Working with a number of social service agencies to develop analysis drawings, schematic designs, furniture details and design specifications for administrative office expansion and renovation. Designing the graphics and online document management system for a large organization's comprehensive building manual.

URBAN DESIGN LAB
INTERNSHIP
New York, NY
06/2009 - 12/2009

Created concept drawings, diagrams and animation for nationally recognized project on food networks and childhood obesity. Wrote and edited text for publication, competition and website. Assisted in the graphic design and presentation for a publication of Urban Design studio work at the GSAPP.

SIRIS/COOMBS
ARCHITECTS
DESIGNER
New York, NY
03/2005 - 08/2007

Responsible for the design and construction management of a 1550 sf high-end penthouse apartment, completed 10/06. Responsibilities included construction details, design sketches and final design presentations, as well as site visits and client relations. Collaborated closely with Principal & Project Architects to develop drafting and project management skills, construction knowledge, and familiarity with industry practices. Participated in LEED training workshops, software and product seminars.

FREELANCE DESIGNER
New York, NY
06/2009 - 09/2009

Worked with private client to develop schematic design drawings for the gut renovation of a house in Cambridge, MA. Produced plans and elevations for multiple schemes, and offered consultation on concept, interior design, and cost efficiencies.

BOULEY RESTAURANTS
FREELANCE DRAFTSPERSON
New York, NY
07/2007 - 08/2007

Produced drawings to assist in the design and documentation for multiple projects under construction, including: documentation of existing residential bath conditions, design of commercial bakery kitchen plan, and residential kitchen design.

THE SPARK CENTER
PROJECT ADMINISTRATOR
Boston, MA
09/2003 - 09/2004

Hired to coordinate the merger between two Boston Medical Center programs for 'at-risk' children in Boston. Responsibilities included program/staff assessment, grant/report writing and editing, administrative planning & research, and the design & development of a secure MS Access database of the program's participants. Managed all aspects of organizing a physical expansion/addition to the existing childcare building, including assessment, development of program, layout and design, vendor selection and contractor relations. Attended training institute for quality childcare design.
